AUTUMN / WINTER 26

AUTUMN /WINTER 2026

## SHORE

As summer fades and the light grows softer, the season shifts towards days filled with quiet warmth and atmosphere. SHORE captures this gentle transition – where minimalism, raw textures and timeless elegance meet. Inspired by the beauty of Nordic nature with its mesmerizing play of light, sandy shores, rugged rocks and soft shadows, our new collection translates the calm grounded spirit of the North into pieces made for every day.

In this season's designs, warmth meets structure. Fisherman-inspired details blend with clean, urban lines, creating silhouettes that feel both grounded and refined. Textures play a central role: Scandinavian-style knits with subtle patterning, soft warm flannel, structured jersey and fluid fabrics form a collection that is tactile and modern in equal measure. Made to move effortlessly between quiet coast days and the rhythm of the city, each piece carries a sense of ease and intention.

The colour palette echoes the landscapes along the shore: deep ocean blues, muted greens, sand and stone, complemented by warm browns and soft touches of red. Natural grounded tones meet modern accents – a nod to Nordic art, architecture and the graphic calm, found in places like the Louisiana Museum of Modern Art. The result is a harmony of colours that feels both contemporary and timeless.

SHORE is a collection for those who feel connected to the quiet strength of the North. For those who love to wrap up warmly without losing clarity and form. These pieces are carried by the understated ease and gentle confidence that define Scandinavian life. Designed to accompany you through the season, wherever your own shore may be.
